FOODGRAINS PROJECT 2022

GROWING FOOD IN FAITH

The Canadian Foodgrains Bank has been in existence for over 35 years providing food for those in need around the world. First St. Andrew's United Church is pleased to continue its partnership with St. Marys United Church in a crop growing project directed to the Canadian Foodgrains Bank.

*Come celebrate that as a Christian response.
Your donation can:*

- ⇒ provide food to people in need
- ⇒ assist households & communities to produce food for themselves or earn the income they need to purchase food
- ⇒ support special initiatives to improve the nutritional well-being of people
- ⇒ advocate for changes in public policy that enable households and communities to better feed themselves
- ⇒ participate in a very worthwhile project with your church family

Since 1983 over 1.1 million tons of food has been provided to people who are hungry in Africa, Asia, the Americas, and Eastern Europe. Millions of people are reached through hundreds of projects in over 37 countries.

You can help make a difference!

Thank you for caring.

Our Project

Stefan Wever of St. Mary's is growing 10 acres of soybeans. In past years we asked for \$35.00 to sponsor 1/20th of an acre of crop in our field. With government matching at 4:1, your donation would generate \$175.00. With increased costs of seed, fertilizer and gas the estimate is \$35 will sponsor 1/20th of an acre. Every donation is matched 4:1.

The Budget

The entire project costs approximately \$700 per acre. This cost includes crop insurance, fertilizer, land rent, and other necessary items for the growing and harvesting of our crop.
