

Admin Advisories for Greeters re FSA COVID Policy

- **Beginning November 14th**, our seating capacity will be lifted and we will no longer need to maintain two metres of separation while in the church. Please be considerate of those who wish to maintain a physical distance.
- Wearing masks at all times that cover the chin, face and nose, keeping hands sanitized and registering for contact tracing purposes is still required.
- **Everyone who enters the church must therefore have proof of being fully vaccinated against COVID-19 or proof of having a medical exemption.**
- Given the significance of this change, your Leadership Council has agreed to make this change as widely known as possible and has set Sunday, November 14th as the date of implementation of this change in practice.
- **Effective November 14th 2021 anyone without this proof will not be allowed to enter the church.**
- Everyone who has already shown their Proof of Vaccination and is on our master file as having done so will not need to show it again.
- For those unable to attend our Church Services in person because they cannot meet our new rules, they may tune into the worship service each week on line at www.fsaunited.com
